

Why CST Education Network Training?

- Training materials include:
 - Asset Overview video
 - Listing of all standard reports and descriptions
 - Course video
 - Course written material
 - Lab exercises
 - Self Assessment
 - Assessment Key
- Materials presented by a certified Oracle trainer with the following experiences:
 - End-user with Oracle Applications Release 9 character
 - Consulting with Oracle Applications R10 – R12
 - Performed 20+ full-life cycle implementations
 - Developed numerous training documents, user guides, key guides
 - Developed numerous CRP and test scripts
 - Developed numerous lab exercises
 - Project Manager
 - Certified Trainer
- Developed from the end-user perspective
- Developed with an accounting understanding and background
- Developed with some technical aspects (with a integrated system like Oracle it is very difficult to remain 100% functional or 100% technical – this training bridges the gap and includes relative information for both sides)
